

Digital Combination Lock 3780

Product Description

Go keyless with Lowe & Fletcher UK electronic locks. Our 3780 digital combination lock is an easy to use and versatile model that is available with a wide range of standard, optional and advanced features. Unique to all our digital code locks, you can use our steel override key to bypass the keyless locking feature when immediate supervisory access is necessary.

Compatible with the **RAS** remote allocation system, typical applications of this keyless digital code lock include **Lockers, Metal** and **Wooden Office Furniture** and **Postal**.

For further information, you can **download the brochure, email** or contact us on **+44 (0) 121 505 0400**.

User, Programming and Installation instructions can be found on our **Downloads** page.
